345NRR Brand

Cyst Nematode Roundup Ready® Soybeans
Mid Group III

2008

Plant Characteristics

Maturity Days	3.4
Plant Height	Medium Tall
Standability	7.2
Plant Type	Intermediate
Flower Color	Purple
Pubescence Color	Tawny
Pod	Brown
Hilum Color	Black

Agronomic Characteristics

Yield Potential	Excellent
Emergence	8
Shatter Resistance	8
Row Width	All
Narrow Rows	Yes

9=Best 1=Worst

Insect and Disease

Phytophthora Tolerance	Rps 1c
Brown Stem	9
Iron Chlorosis	6.8
Cyst Nematode	2

General

Placement	345NRR will work well on most soil types, especially those with a history of SCN.
General Comments	345NRR is a versatile soybean that works well in most management systems.
Overview	Excellent defensive variety with high yields.
