5155 Brand YieldGard VT Triple

5155 is a medium tall 91 day Roundup Ready, YieldGard Corn Borer and YieldGard VecTran Rootworm Hybrid. This hybrid has good stalks, excellent roots and a semi flex ear. This hybrid works across many environments and has a strong yield potential in high or low yielding environments.

Plant Characteristics

Maturity Days	91
Black Layer GDU's	2140
Appearance	Healthy , Very attractive
Plant Height	Med Tall
Early Season Vigor	9

Ear Characteristics

Ear Type	Flex	Husk Cover	9
Ear Placement	Medium 40	Retention	8
Kernels	16 to 18 around	Shank Length	Medium
Test Weight	7		

9=Best 1=Worst

Agronomic Characteristics

Root Strength	6	5155 has average roots.
Stalk Strength	8	5155 has above average stalk strength
Plant Integrity		5155 has very good stay green and late season intactness
Population Tolerance	8	5155 handles low populations very well and can support high populations up to 33000
Drought Tolerance	8	

Insect

Insects 5155 contains both the YieldGard Corn Borer and YieldGard VecTran Rootworm Technology.

General

Placement 5155 works well across all soil types and handles high and low yield environments.

Positioning Statement 5155 can be positioned across South Dakota and Minnesota in areas where a 91 day YieldGard Rootworm, YieldGard Corn Borer and Roundup Ready corn is needed.
