## 5612 Brand YieldGard Corn Borer

5612 is a medium tall BT hybrid with proven performance. This hybrid has a flex ear that produces excellent grain quality. Tests have shown 5612 adapts well to many different environments. 5612 contains the YieldGard Corn Borer Insect Protection.

### Plant Characteristics

|                    |                 |
|--------------------|-----------------|
| Maturity Days      | 96              |
| Black Layer GDU's  | 2265            |
| Appearance         | Very Attractive |
| Plant Height       | Medium Tall 85" |
| Early Season Vigor | 8               |

### Ear Characteristics

|               |                |              |               |                |
|---------------|----------------|--------------|---------------|----------------|
| Ear Type      | Flex           | Husk Cover   | 7             | 9=Best 1=Worst |
| Ear Placement | Medium 36"     | Retention    | 8             |                |
| Kernels       | 14 - 16 Around | Shank Length | Moderate Long |                |
| Test Weight   | 8              |              |               |                |

### Agronomic Characteristics

|                      |   |  |
|----------------------|---|--|
| Root Strength        | 9 | Excellent roots.   |
| Stalk Strength       | 7 | Good stalks equal to 5611.   |
| Plant Integrity      |   | Good stay green and excellent late season plant health.  |
| Population Tolerance | 9 | 5612 will tolerate a wide range of populations. This hybrid can be planted at low or high populations. |
| Drought Tolerance    | 9 |  |

### Insect and Disease

|                 |   |
|-----------------|---|
| Gray Leaf Spot  | 7   |
| Stewarts Blight | 7   |
| Disease         | 5612 has a very good disease package. 5612 shows good tolerance to most of the common plant diseases. |
| Insects         | 5612 contains the YieldGard Corn Borer technology.  |

### General

|                       |  |
|-----------------------|--|
| Placement             | 5612 will work across many environments. No soil restrictions. Well suited for dryland or irrigation.  |
| Positioning Statement | 5612 will work anywhere a 96 day BT corn is needed. It has very good drought tolerance and top end yield. This hybrid has a proven track record across many environments. It will work in the toughest conditions and excel in the best. |
