## 5613 Brand Roundup Ready Corn 2

This hybrid has the right combination of genetics and Roundup Ready technology to be a true performer on your farm. 5613 is a hybrid that will work across many environments with very consistent yields due to excellent drought tolerance. 5613 has a flex ear with very good grain quality. The Roundup Ready technology gives you flexible weed control for added peace of mind.

### Plant Characteristics

Maturity Days	96
Black Layer GDU's	2265
Appearance	Very Attractive
Plant Height	Medium Tall 85"
Early Season Vigor	8

### Ear Characteristics

Ear Type	Flex	Husk Cover	7
Ear Placement	Medium 36"	Retention	8
Kernels	14 - 16 Around	Shank Length	Moderate Long
Test Weight	8		

9=Best 1=Worst

### Agronomic Characteristics

Root Strength	9	Excellent roots
Stalk Strength	7	Good stalks equal to 5611.
Plant Integrity		Good stay green, and excellent late season plant health.
Population Tolerance	9	5613 will tolerate a wide range of populations. This hybrid can be planted at low or high populations.
Drought Tolerance	9	

### Insect and Disease

Gray Leaf Spot	7
Stewarts Blight	7
Disease	5613 has a very good disease package. 5613 shows good tolerance to most the diseases that are encountered in the Midwest.
Insects	5613 has average natural tolerance to European Corn Borer.

### General

Placement	5613 will work across many environments. No soil restrictions. 5613RR2 is well suited for dryland or irrigation.
Positioning Statement	5613 will work anywhere a 96 day Roundup Ready corn is needed. It has very good drought tolerance and top end yield. This hybrid has a proven track record across many environments. It will work in the toughest conditions and excel in the best.
