5622 Brand

2008

Roundup Ready Corn 2

5622 is a high performing hybrid for your more productive soils. This hybrid has the herbicide flexibility of Roundup Resistance. 5622 has a nice flex ear and will handle many population levels. Watch this hybrid work for you on your farm.

Plant Characteristics

Maturity Days	96
Black Layer GDU's	2240
Appearance	Medium stature good late season intactness
Plant Height	Medium Tall
Early Season Vigor	6

Ear Characteristics

Ear Type	Semi-Flex	Husk Cover	8
Ear Placement	Medium 40	Retention	8
Kernels	14-18	Shank Length	Medium
Test Weight	7		

9=Best 1=Worst

Agronomic Characteristics

Root Strength	8	5622 has very good roots
Stalk Strength	9	5622 has excellent stalks.
Plant Integrity		5622 has very good staygreen and very good late season intactness
Population Tolerance	8	This hybrid can handle high populations but has enough flex for lower population situations.
Drought Tolerance	8	

Insect and Disease

Northern Leaf Blight	8	
Eyespot	7	
Disease		5622 is a very healthy hybrid.
Insects		5622 has average natural corn borer tolerance.

General

Placement 5622 is a very versatile hybrid. It handles tough drought conditions and is a top performer in the best yield environments.

Positioning Statement 5622 will work in most environments. Strong agronomic package coupled with top yields makes this a sure winner. This hybrid works best where a 96 to 100 day hybrid is the average maturity.
