5624 Brand YieldGard VT Triple

5624 is a high performing hybrid for your more productive soils. This hybrid has corn borer and rootworm protection along with added herbicide flexibility of Roundup resistance. 5624 has a nice flex ear and will handle many population levels. Watch this hybrid work for you on your farm.

Plant Characteristics

Maturity Days	96
Black Layer GDU's	2240
Appearance	Medium stature good late season intactness
Plant Height	Medium
Early Season Vigor	6

Ear Characteristics

Ear Type	Semi-Flex	Husk Cover	8
Ear Placement	Medium 40	Retention	8
Kernels	14-18	Shank Length	Medium
Test Weight	7		

9=Best 1=Worst

Agronomic Characteristics

Root Strength	8	5624 has very good roots and protected with YieldGard VecTran Rootworm Technology.
Stalk Strength	9	5624 has excellent stalks.
Plant Integrity		5624 has very good staygreen and very good late season intactness
Population Tolerance	8	This hybrid can handle high populations but has enough flex for lower population scenarios.
Drought Tolerance	8	

Insect and Disease

Eyespot Disease	7	Northern Leaf Blight	8
Insects	This hybrid is protected with YieldGard corn borer and YieldGard VT rootworm technology.		

General

Placement	5624 is a very versatile hybrid. It handles tough drought conditions and is a top performer in the best yield environments.
Positioning Statement	5624 will work in most environments. Strong agronomic package coupled with top yields makes this a sure winner. This hybrid works best where a 96 to 100 day hybrid is the average maturity.
