**6944** Brand

YieldGard VT Triple

6944 is a solid corn belt hybrid. Strong flex ear with deep kernels, solid agronomics, and lots of flexibility will let this hybrid earn a spot on your farm. 6944 can go anywhere corn borer protection is desirable, and where corn rootworm and roundup ready protection is needed.

## Plant Characteristics

Maturity Days	109
Black Layer GDU's	2550
Appearance	Dark green, medium stature attractive plant
Plant Height	Medium
Early Season Vigor	8

## Ear Characteristics

Ear Type	Flex	Husk Cover	7
Ear Placement	Medium Low	Retention	8
Kernels	16-18	Shank Length	Medium
Test Weight	8		

9=Best 1=Worst

## Agronomic Characteristics

Root Strength	7	6944has very good roots.
Stalk Strength	8	6944has very good stalks
Plant Integrity		Excellent late season plant health and intactness.
Population Tolerance	9	6944 has solid stalks and a good root that will let it handle populations of 26 - 30000 plants. It has enough flex to
Drought Tolerance	8	handle lower populations as well.

## Insect and Disease

Gray Leaf Spot	7	Northern Leaf Blight	7
Eyespot	6		
Disease	6944 has a strong disease package.		
Insects	6944 is protected with the YieldGard VT3 technology. This gives excellent control of corn borer, rootworm, and secondary pests.		

## General

<b>Placement</b>	6944 has very strong east to west movement. This hybrid works across most environments and management styles. 6944 works great in reduced or conventional tillage scenarios and across most soil types.
<b>Positioning Statement</b>	Use 6944 wherever a strong 108 - 109 day hybrid with maximum insect protection and Roundup flexibility is needed. Very strong roots and exceptional stalks with low green snap potential along with a strong agronomic package make this a "go anywhere" hybrid.
