**6947** Brand

2008

YieldGard Plus Roundup Ready Corn 2

6947 is a solid corn belt hybrid. Strong flex ear with deep kernels, solid agronomics, and lots of flexibility will let this hybrid earn a spot on your farm. 6947 can go anywhere corn borer protection is desirable, and where corn rootworm and roundup ready protection is needed.

## Plant Characteristics

Maturity Days	109
Black Layer GDU's	2550
Appearance	Dark green, medium stature attractive plant
Plant Height	Medium
Early Season Vigor	8

## Ear Characteristics

Ear Type	Flex	Husk Cover	7
Ear Placement	Medium Low	Retention	8
Kernels	16-18	Shank Length	7
Test Weight	8		

9=Best 1=Worst

## Agronomic Characteristics

Root Strength	7	6947 has very good roots.
Stalk Strength	8	6947 has very good stalks and very low possibility of green snap.
Plant Integrity		
Population Tolerance	9	6947 has solid stalks and a good root that will let it handle populations of 26 - 30000 plants. It has enough flex to handle lower populations as well.
Drought Tolerance	8	

## Insect and Disease

Gray Leaf Spot	7	Northern Leaf Blight	7
Eyespot	6		
Disease	6947 has a strong disease package		
Insects	Yield Guard Plus protected		

## General

Placement	6947 has very strong east to west movement. This hybrid works across most environments and management styles. 6947 works great in reduced or conventional tillage scenarios and across most soil types.
Positioning Statement	Use 6947 wherever a strong 108 - 109 day hybrid with maximum insect protection and Roundup flexibility is needed. Very strong roots and exceptional stalks with low green snap potential along with a strong agronomic package make this a "go anywhere" hybrid.
