2008

6949 Brand
Liberty Link

6949 is a solid corn belt hybrid. Strong flex ear with deep kernels, solid agronomics, and lots of flexibility will let this hybrid earn a spot on your farm.

Plant Characteristics

Maturity Days	109
Black Layer GDU's	2550
Appearance	Dark green, medium stature attractive plant
Plant Height	Medium
Early Season Vigor	8

Ear Characteristics

9=Best 1=Worst

Ear Type	Flex	Husk Cover	7
Ear Placement	Medium Low	Retention	8
Kernels	16-18	Shank Length	7
Test Weight	8		

Agronomic Characteristics

Root Strength	7	6949 has very good roots, better than 7000
Stalk Strength	8	6949 has very good stalks and very low possibility of green snap.
Plant Integrity		Excellent late season plant health and intactness.
Population Tolerance	9	6949 has solid stalks and a good root that will let it handle populations of 26 - 30000 plants. It has enough flex to handle lower populations as well.
Drought Tolerance	8	

Insect and Disease

Gray Leaf Spot	7	Northern Leaf Blight	7
Eyespot	6		
Disease	6949 has a strong disease package.		
Insects	Average corn borer tolerance		

General

- Placement** 6949 has very strong east to west movement. This hybrid works across most environments and management styles. 6949 works great in reduced or conventional tillage scenarios.
- Positioning Statement** Use 6949 wherever a strong 108 - 109 day hybrid with the Liberty Link herbicide system is needed. Very strong roots and exceptional stalks with low green snap potential along with a strong agronomic package make this a "go anywhere" hybrid
