## 7077 Brand YieldGard VT Triple

7077 is a very versatile hybrid that has excellent yield potential along with a solid agronomic package. YieldGard VecTran Technology gives the latest in insect protection traits. Outstanding late season integrity and top performance will make 7077 the next "hybrid to beat" on your farm.

### Plant Characteristics

Maturity Days	110
Black Layer GDU's	2555
Appearance	Dark green, very attractive
Plant Height	Medium
Early Season Vigor	8

### Ear Characteristics

Ear Type	Flex	Husk Cover	8
Ear Placement	Medium	Retention	9
Kernels	16-18	Shank Length	Medium
Test Weight	7		

9=Best 1=Worst

### Agronomic Characteristics

Root Strength	9	7077 has excellent roots, similar to the 6940 series.
Stalk Strength	9	7077 has excellent stalks, similar to the 6940 series.
Plant Integrity		Very good late season intactness.
Population Tolerance	8	7077 has a flex ear allowing it to perform well at lower populations, but it also has the genetic package to yield at higher population.
Drought Tolerance	8	

### Insect and Disease

Gray Leaf Spot	7	Northern Leaf Blight	8
Eyespot	8		
Disease	7077 has very good tolerance to most foliar diseases.		
Insects	7077 is protected with the YieldGard VT3 technology. This gives excellent control of corn borer, rootworm, and secondary pests.		

### General

Placement	7077 works well on both dryland and irrigated acres and has the insect protection for your corn on corn acres.
Positioning Statement	7077 will perform well on most soil types and the solid agronomic package make it an excellent choice for all your corn acres.
